- Front end:Angular
- Languages used : 1.TypeScript
  2. JavaScript
  - 3.HTML
  - 4.CSS (BootStrap)
  - 5.Java
  6. PL

# CONCLUSION

---

- The concept of traditional education has changed radically within the last couple of years. Being physically present in a classroom isn't the only learning option anymore — not with the rise of the internet and new technologies, at least. Nowadays, you have access to a quality education whenever and wherever you want, as long as you can get online. We are now entering a new era — the revolution of online education.
- In this BRIGHT ACADEMY any user can purchase the available Courses in our application.
- We will provide cheap and best courses .
- We created this web application to make cost effectively and user friendly.

**THANK YOU**
